Most of the support options on the list will be self-explanatory and their qualities covered by the National Arsenal Table. All tanks and armoured cars come with a *Junior Leader*. Transport only vehicles, such as the car are simply vehicles which come with no crew. Remember, you will need to allocate men to drive these.

SATCHEL CHARGE

The satchel charge is shown on Table Seven, *Hand-Held Anti-Tank Weapons*. The charge may be used once by any *Section* on the table when commanded by the *Senior Leader* commanding the platoon who is, we assume, carrying it with him up to that point.

How the charge works is detailed in Section 9.3.4, *Tank Hunters*. A maximum of two satchel charges may be selected by a German force.

50MM MORTAR TEAM

The 50mm mortar has only H.E. rounds; no smoke being provided. It has a minimum range

of 12", but closer than that the crew may use their rifles.

TWIN MACHINE GUNS

The twin machine guns on the Panzer I fire with a firepower factor of 8 to represent the enhanced firepower.

AUFKLARUNGS SQUAD

Three motorcycles with side-cars transport the reconnaissance squad. It has one LMG with two crew on one machine and three riflemen on the other two. When dismounted this operates with one Junior Leader, a two-man LMG Team and a five-man Rifle Team.

THE GERMAN ARSENAL TABLE

The Arsenal Table below covers a wide range of German support options. For infantry weapons and some armoured vehicle armament see Table Four, *The Master Arsenal Table*.
